## A refreshing new blend of window technologies that redefines replacement windows for multi-family housing

### COLORS:

MODERN EUROPEAN WHITE  CUSTOM

### STYLES:

### GRID PATTERNS:

### GRID PROFILES:

### Features

- Easy To Install Self Squaring Properties
- Constant force stainless steel balance hardware system (Double Hung)
- Foam filled main frame
- Extruded full and 1/2 screens available
- Matching slider and picture units available in matching reverse brickmold frame
- Modern European white colored pvc profile
- Fully welded sash system with contour bevel
- Architectural shapes available to match product line
- Fully welded main frame with 10 degree sloped sill
- Custom Color Options

The Superseal Series 1100C vinyl profiles have an enormously low heat transmission value that reduces energy loss because of its multi-chamber design.

### THERMAL DATA:

U-VALUE (Standard)	.031*
U-VALUE (Option Upgrade)	.030
SOLAR HEAT GAIN	0.21
VISIBLE LIGHT TRANSMITTANCE	0.49
CONDENSATION RESISTANCE FACTOR	56

\* A .030 U-VALUE can be achieved when second layer of Solarban 70XL<sup>®</sup> Low-E glass is applied. The standard window offering comes with a single layer of Solarban 70XL<sup>®</sup> Low-E glass and argon gas.

## Series 1100(c) Meets New Economic Stimulus Guidelines\*

Now CDC's, WAP's and other housing stakeholders can choose a high efficiency double hung window that is eligible for President Obama's Stimulus Tax Credit.
