

The 1700 Replacement Window

Reaching new highs with a new low.

The newly redesigned Series 1700 Double Hung Window features a low 0.29* U-Value and many new features that improve its overall value, style, and energy efficiency.

The new 1700 is equipped with Edgetech Super Spacer® a flexible silicone foam spacer that provides the maximum in perimeter glazing insulation. Windows ordered with Low-E glazing now feature Solarban® 70XL high performance glass. Other more notable features are a constant force balance, a stainless steel hardware package, high density perimeter foam on the frame exterior, and jamb jacks for ease of installation.

The New 1700 features the Roto Flip Lock an automatic sash lock for single hung, double hung, and sliding windows that's easy to operate, and highly intuitive. Flip Lock's excellent balance and durability combined with its intuitive and sleek design, provides you with a superior lock while providing you with great comfort, convenience and security.
